WHY CHOOSE REGENCY?

Regency has established itself as a provider of high-quality products for more than 40 years. As a result, our customers are able to choose from a diverse range of premium and sustainable heating options and enjoy durable products that last a lifetime.

SAFE FOR KIDS

Regency's new electric fireplaces provide the comfort and ambiance of a traditional fireplace without the need for gas lines and vents. Since there is no combustion, the glass does not heat up which makes it fitting for kid-friendly environments.

HIGH RISE FRIENDLY

With electric fireplaces, there is no need for fuel lines, chimneys, or exterior venting which allows them to be installed into virtually any space. As a result, they are the perfect candidate for apartments and condos.

EASY INSTALLATION

Choose between a plug or hardwire kit (provided with each fireplace), to have endless spaces as installation options. This trouble-free installation also presents benefits in the form of cost savings and minimal time to set up.

Why Regency? Because it's *more* than a fireplace!
